| 7. _____ | 14. _____ |

It is very important to remember these dates are determined early in the spring. To try and predict exactly what dates your body of water will need to be managed, is like trying to predict the weather, not that easy. We do make accurate predictions based on past experience, and traditional summer patterns. Please feel free to call and make changes through out the summer. We are prepared to make adjustments to the schedule. Please call 616.365.1698 if you feel treatment dates need to be postponed or moved up to keep the property looking great.

******Enclosed is a notice that each property owner within 100' of the treatment area must receive. You can complete this notification procedure by soliciting funds, handout flyers or through your local newspaper or newsletter. This notice must be circulated at least seven days in advance of the treatment.******

If you have any questions or problems with the proposed treatment dates, please contact us as soon as possible to avoid any delays. Thank you

**** Dates may also be affected by permits, and the timely manner the DEQ issues them....***

Sincerely,

M.T. Ryan Schauland
